The **Global Partnership for Social Accountability** (GPSA) is a coalition of donors, governments and civil society organizations (CSOs) that aims to improve development results by supporting capacity building for enhanced citizen feedback and participation. The GPSA will contribute to country-level governance reforms and improved service delivery. To achieve this objective, the GPSA provides strategic and sustained support to CSOs' social accountability initiatives aimed at strengthening transparency and accountability.

The GPSA is pleased to announce its First Global Call for Proposals. The GPSA will support the Indonesia Open Government Initiative to create a space for transparency, innovation and citizen participation, with substantial public accountability elements. The Indonesia GPSA seeks proposals on Social Accountability from Civil Society Organizations to monitor outcomes of centrally funded rural, agriculture, health or infrastructure projects that are being implemented by a cross section of innovative local governments (*Provinsi, Kabupaten, Kota*). Proposals should focus on three dimensions:

- ⇒ *Transparency - collaborate with central and local government, citizens and other stakeholders to make public expenditure data transparent to citizens at the local level (fiscal transparency).*
- ⇒ *Innovation - collaborate with technology and media partners to track, monitor and present complex public expenditure and public procurement information in a simple, digestible and easily accessible form to citizens, through innovative use of ICT and mobile solutions, in view of Indonesia's unique geographic and technological context.*
- ⇒ *Participation - collaborate with citizens and innovative local governments to monitor and evaluate service delivery performance vis a vis public expenditure at the local level, and to generate comparative temporal and spatial data and analysis of performance outcomes.*

Proposals may focus on one or more of the above mentioned sectors.

GPSA Funding Modalities

- ***Social Accountability Initiatives and Programs.***
- ***Mentoring and capacity-building of nascent CSO, including on-granting.*** These proposals must be submitted by CSOs with proven track record on social accountability, that are legal entities in one of the "opted-in" countries and the activities should take place in one of these countries.
